## Can They Help Being Anarchists?

Hold up, there! Don't growl too

fiercely at those clankers who got up a riot and thereby made fools of themselves.

Yes, they were wrong in resorting to violence, and undoubtedly the only thing to do with a man who swings a club is to hustle him off to the station house.

But look at this picture and then let your criticisms be made "more in sorrow than in anger." There is something radically wrong in our social economy when such a sketch can be called realistic and truthful.

Henry Simon got bail and went home. Home, you say? Well, let us see. It consists of two rooms and a dark hole. His wife is sick, poor creature. He has six children, ranging from two years old to fourteen.

Eight persons in two rooms and a dark hole! Is that a home? And they had nothing to eat were starving. All the bedding and what is the furniture they once possessed had gone to the pawnshop—for bread. When Simon joined the wild crowd he was on his way to sell a couple of towels to get a breakfast for his children.

New York—the nineteenth century—five hundred churches—a man pawning two towels to buy a loaf.

Behold the results of the cursed, damnable sweating system. Isn't a screw loose somewhere when we have aristocrats with countless millions at one end of society, and rank, riotous, violent and pestiferous anarchists at the other, men who only know that something is wrong and want to blow the world up with dynamite because any change would be for the better?

Yes, those rioters were fools; but aren't some of the rest of us fools also?—New York Herald.

A Texas exchange says: Stand up for your country. It is a poor man that will live in a country and run it down at the same time. If you don't like where you live, get up and go somewhere you do like and hush talking about your neighborhood, and be perfectly quiet until you do get out. Then if you are bound to blow off, shoot your bazoo.

There is a weak point in the anarchist's always running a town or country down and won't leave it.
